TrakSlider™ General Information & Specifications

GENERAL INFORMATION

Product Description: The Datum TrakSlider™ mobile system is designed to increase storage capacity in a minimal amount of floor space while still retaining a high degree of accessibility. Our unique design enables more than half the system to be accessible at any time. All Datum systems are designed to eliminate the need for access aisles between shelves. By eliminating fixed aisles between shelves, retrieval time is reduced and user efficiency is increased. All Datum systems are designed to accept a variety of media storage requirements. All systems are modular in design and can be reconfigured and added onto at any time without the need to disassemble, relocate, or remove existing files.

All Datum TrakSlider™ mobile systems consist of modular, all-welded steel frame and rail assemblies, flush decking, single or multiple row(s) of lateral rolling carriages, and overhead stabilizer & roller assemblies. All systems can be configured as a Bi, Tri, and/or QuadSlider System. All TrakSlider™ carriages include four wheels that ride on a double rail track for an added measure of stability and safety.

SPECIFICATIONS

Material and Workmanship: All Datum mobile systems are manufactured from high quality, cold rolled steel, free of scale or rust. Exposed corners, and surface areas are free of any sharp edges. All rails, stabilizer and carriage assemblies are joined together using state-of-the-art welding technologies.

Tracks: Each modular track assembly will consist of two 14 gauge formed steel rails. The rail assembly will be welded to a minimum of 4 corresponding 14 gauge steel support channels. Track assemblies are easily leveled by adjusting built-in leveling glides found in the support channel located every 12 inches on center. End stops are installed at each end of the rail assembly to provide a safe, cushioned stop for the mobile carriage. All track assemblies include a stainless steel decorative cap. This cap will be attached to the front of the track assembly giving it a finished profile.

Decking: Decking will be manufactured of 16 gauge formed steel, coated with a non skid textured finish. Deck panels will be installed between each rail creating a smooth unobstructed finish.

Top Stabilizers: Top stabilizers consist of a single or double 18 gauge steel formed channel attached to the stationary rack, and a 14 gauge steel bracket with two 1-3/8" nylon faced ball bearing rollers attached to the top of each mobile rack. The bearing assembly will be adjustable to compensate for any irregularities in the floor.

Carriages: Carriages consist of sections of "U" shaped formed cold rolled steel 13 gauge and 14 gauge stringers and cross members, all electrically welded to form a strong and durable frame.

Wheels: Carriage wheels will be 2-3/16" in diameter and made of Delrin®. Each wheel will have (1) 1-7/8" diameter heavy-duty, double sealed, permanently lubricated ball bearing. There are a total of four wheel assemblies per carriage.

Finish: All steel parts are thoroughly cleaned using a three-stage iron phosphate washer and then coated with an Epoxy-Hybrid powder coat finish using a state-of-the-art electrostatic paint system. Powder coating provides a superior, attractive, uniform finish that is more durable, scratch and corrosion resistant, and environmentally friendly than liquid paint. Track assemblies are available in black paint only.

Size: TrakSlider Systems are available in three standard configurations (Bi, Tri, and Quad) to fit virtually any storage requirement and room size.

Specifying and Ordering: To help select the right application for your needs, Datum offers three different track systems:

Preconfigured Assemblies: All Datum track systems are designed to fit virtually any type of shelving. We have also made it easy to order. Simply pick the system to fit your shelving application and room requirements. Again, one part number will include all necessary track and hardware for a complete system.

Starter and Add-On Track Assemblies: All track assemblies are available as individual components, which can be mixed and matched in virtually endless configurations for optimum space utilization. All track assemblies can be joined together to create a customized filing system. Please note that when ordering systems as individual components, you will require at least one Starter track assembly.

Conversion Plates

When ordering shelving other than Datum ThinStak®, Conversion plates for each movable carriage are required.
 EXAMPLE: B676LG requires (6) CP15

Item #	Media	Est. Lbs.	List Price
CP12	Letter	1	36.00
CP15	Legal	1.5	36.00
CP18	X-Ray	2	36.00

* Media Size: Letter 12" up to 13-3/16" deep • Legal 15" up to 16-3/16" deep • X-Ray 18" up to 19-3/16" deep

**Includes 2" of carriage overtravel on each side of system.

† Dimension is for Track Assembly only. You must include depth of stationary tier to achieve overall depth of system.

Example: B621LT, 12" deep stationary tier + 14-1/2" deep track assembly = 26-1/2" overall depth.

Preconfigured Track Assemblies (Tiers and Bases are Not Included)

42" BiSlider Preconfigured Track Assemblies

The BiSlider Track Assembly can be ordered for a wide variety of shelving applications. When using Datum ThinStak® a 2" leveling base is required. Conversion plates are not included in price. See below for correct media size.

TriSlider™ Systems

Conversion Plates

When ordering shelving other than Datum Stackable, Conversion plates for each movable carriage are required.
 EXAMPLE: B876LG requires (6) CP15

Item #	Media	Est. Lbs.	List Price
CP12	Letter	1	36.00
CP15	Legal	1.5	36.00
CP18	X-Ray	2	36.00

* Media Size: Letter 12" up to 13-3/16" deep • Legal 15" up to 16-3/16" deep • X-Ray 18" up to 19-3/16" deep

**Includes 2" of carriage overtravel on each side of system.

† Dimension is for Track Assembly only. You must include depth of stationary tier to achieve overall depth of system.

Example: B821LT, 12" deep stationary tier + 14-1/2" deep track assembly = 26-1/2" overall depth.

BiSlider/TriSlider/QuadSlider Starter & Add-On Track Assemblies
