© Core Product Line

- HON "One Key" interchangeable core removable locks are standard on most HON products. Look for the HON "One Key" icon.
- Keyed alike cores are listed below.
- If key number is not specified, number will be at random.
- For keyed alike locks:
 - Order standard product which will be shipped with factory installed locks and random numbered cores.
 - Order the appropriate quantity of like numbered cores required for each workstation or keyed area.
 - Simply replace the factory installed cores with the replacement cores after product has been installed.
- To install new core:
 - Lock must be in the unlocked position.
 - Insert core removal key and pull core straight out.
 - Insert new core with core removable key, hold core into lock and withdraw core removal key.
 - Retain original core for future use.
- To provide normal lead times, key numbers cannot be specified on HON products at time of order. This also eliminates need for tagging and tracking each product's lock number during installation.
- Chrome removable lock core kit used on metal casegoods.
- Black removable lock core kit used on laminate casegoods.
