Datum Stak-N-Lok2™ Series

STACKABLE, MODULAR, LATERAL FILING SYSTEM SERIES

With office space at a premium, *Stak-N-Lok2™* files add more capacity while taking up considerably less floor space – 15" deep compared to 18" for a standard lateral file. There's also an additional level of filing compared to a lateral file. The modular design allows for the most efficient use of available floor space. *Stak-N-Lok2's* receding door design allows access to all of the files at once, not just one level at a time.

Extra Divider
SNPD \$4

Letter • SIZES STOCKED – 15" d
